FOREWORD

It is my pleasure to present 25th annual report of **ISLAMIC RELIEF AND RESEARCH TRUST KASHMIR** of the year 2024-2025 It gives me immense pleasure to present what we have been able to achieve this year to our Donors, Well wishers / Members and General Public

Every one associated with this trust is encouraged when we receive appreciations from organisations National & International and from public for the work done under the banner of Zakatt Centre ISLAMIC RELIEF AND RESEARCH TRUST, but I admit and acknowledge our weakness and lope holes and less resource mobilisation we welcome constructive critism and suggestion from our donors and well wishers.

We are delighted and encouraged to see that people from different walks of life are extending their helping hand and endorse our mission.

We have a team of dedicated workers and volunteers in our organisation but we feel less man power, we need more dedicated persons to join our mission.

We have completed our 25 years in the field of welfare and philanthropy our

mission and vision is to contribute to the society by bringing joy on the faces of Needy and desperate. We are engaged to bring peace on ground harmony and prosperity by rendering our committed selfless services to the mankind we. are committed to upgrade the living standard of marginelised and under prevlaged sections of the society.

It is only with the help of our donors and monthly subscribers that we are able to extend our support to needy one and achieve our goal and fulfil our objectives.

It is imperative to have support from generous donors and funding agencies in order to carry forward our activities and motive.

Given circumstances of previous decades we are witness to see women and children in particular vulnerable and sufferers. The education of poor and orphan children is the causality, our efforts are on cards for their rehabilitation and education. For the empowerment of women and welfare of children we utilize our limited resources. Our responsibilities and challenges are increasing day by day in order to arrange the educational facilities of orphans.

We have with us large number of orphans who need education, health care and shelter and thousands of women need our support for their livelihood sustenance, they need community Support and guidance.

During the year we tried our best to reach out people who were are in need of help and support. Our main source of income is Zakat which we collect and utilise as per mandate of Sharia, unfortunately the people who are under obligation to pay zakat. are not paying regularly and with commitment but people take it casually. As per our estimation only 6.5% people are paying Zakat regularly and promptly as per schedule and rest of the people ignore this important pillar of ISLAM.

We try our level best to regulate the zakat paying system by generating awareness, our ZAKAT centre is trying to evolve a system for mobilising people and resources. I extend my gratitude and sincere thanks to all our individual donors and monthly subscribers and to Donor agencies for providing us monitory support and moral boosting and encouragement. I invite all the interested persons and well

wishers Donors to come forward and shake hands with us to accomplish our noble mission and vision we look forward for social bonding, social change, brother hood, communal harmony peace and prosperity in the society. All needy persons are treated equally irrespective of caste, region and religion We are committed to provide space to all those who wish to contribute on humanitarian grounds to the needy one for Social Justice. I wish and pray for success.
